

# KZN RESIDENTIAL

Echo also does individual residences, such as the one depicted here with 456m<sup>2</sup> of 150mm deep slabs. Prior to commencing construction, we recommend reaching out to Echo. Our team is ready to collaborate with your professional team to discuss and negotiate the optimal and most cost-effective building methodology, incorporating Echo's diverse range of precast products. This includes floors, stairs, beams and our high-end security walls known as SECURI-WALL.

## CONTACT US!

For detailed information on all our products, please visit [echo.co.za](http://echo.co.za) and [securi-wall.co.za](http://securi-wall.co.za). Your primary contact person is Sara Naidoo, and you can find all the necessary contact details on our website.
