OUR CANTILEVER SLABS

Cantilever Criteria:

Cantilevers are designed to suit special loads and requirements. Avoid high loads at the ends of the cantilever, for example, on gable walls.

- For 120 & 150 mm slabs: cantilevers up to a maximum of 9 times this slab depth
- For 170 mm slabs: up to a maximum of 8 times this slab depth
- For 200 & 250 mm slabs: up to a maximum of 7.5 times this slab depth
